

I visit Houston Texas twice in 2023: in March and September,

to visit my kid sister, Margaret,

and her son, daughter-in-law, and grandkids,

and more kids, in-laws, and grandkids,

and my college classmate, Gary, and wife, Stella.

We go visit Margaret's Lake House,

which is on Lake Livingston.

(The house as viewed from the lake.)

(We also join her friends for lunch at The Catfish King.)

We go to the NASA Space Center,

and see the Saturn V Rocket,

the Space Shuttle (and the 747 it rode in on),

and modules of the International Space Station.

Good night and goodbye, Houston!
